

A close-up portrait of Paris Hilton with long, wavy blonde hair. She is wearing a black lace top and a star-shaped earring. Two callout boxes are present: one for 'CHEEKS' pointing to her cheekbones and one for 'JAWLINE' pointing to her jawline. A 'NOW' badge is in the top right corner.

NOW

CHEEKS

Skin care expert Dr. William Kwan notes that Paris, 36, "still has very good cheek volume, and her cheekbones look higher." He suspects fillers, which cost \$650-\$1.3K.

JAWLINE

"The most notable change," says aesthetics specialist Dr. Shawn Abrishamy, "is her softer jaw." He says she may have had Botox or Dysport (\$500-\$900) in the masseter muscle (which is involved in chewing).

Changes

Have small tweaks given Paris Hilton a more mature look?
